Foreword.....	v
Preface	vii
Drinking Water Directive (98/83/EC): the proposal of revision	ix
Terms and definitions.....	xii
Abbreviations.....	xv
1 FUNDAMENTALS OF HYGIENE AND WATER QUALITY	1
1.1 Physico-chemical water quality	1
1.2 Water quality and microbiology.....	4
1.3 Maintaining water quality	14
1.4 Biostability in potable water supply networks	16
2 DESIGN, ASSEMBLY AND START-UP	19
2.1 General design rules	19
2.2 Structural requirements.....	21
2.3 Dimensioning and pipe routing for potable water installations in buildings ..	28
2.4 Selection of materials, auxiliaries and products	30
2.5 Corrosion and scaling	32
2.6 Operating instructions, maintenance and hygiene plans	35
2.7 Monitoring of operating parameters.....	36
2.8 Transport, storage and construction	36
2.9 Assembly	36
2.10 Leak test and start-up.....	37
3 USE AND MODE OF OPERATION	39
3.1 General notes.....	39
3.2 Measures to be taken in case of interruptions of operation.....	39
3.3 Sampling.....	40
3.4 Disinfection	42

4	MAINTENANCE.....	49
4.1	General notes.....	49
4.2	Maintenance planning.....	49
5	EXAMPLES OF CHECKLISTS	55
5.1	Maintenance	55
5.2	Model hygiene plan	59
5.3	Potential causes and remedial measures in practical work	60
5.4	Hygienic working	61
5.5	Example of entry for the sanitary room book.....	63
5.6	Template for instruction record.....	64
6	BIBLIOGRAPHY	65
7	LIST OF NATIONALLY APPLICABLE OFFICIAL DOCUMENTS ON THE PREVENTION OF <i>LEGIONELLA</i>	71
